HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. H. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

Drizzling rain has been falling all day, consequently the Caledonian annual celebration has been postponed until next Saturday.

It is reported that work on the Humboldt and Petaluma railroad has ceased, and the laborers discharged.

The first clean up for May at the Amador mine will yield thirty thousand dollars.

The weakness exhibited in mining stocks at the Board yesterday prevailed again this morning in a further decline in all descriptions offered.

There are six cases of small pox reported at Gold Hill.

News Items.

The bill authorizing marriage with a deceased wife's sister has passed its second reading in the House of Commons by a a large majority.

There are five large establishments in San Francisco devoted to the manufacture of boots and shoes. The amount of work turned out annually may be estimated at $2,000,000 to $3,000,000.

The railroad is a great civilizer. All along the line of the great trans continental railroad just completed, population is rapidly increasing and improvements of every kind are being introduced.

The British Government have sent instructions to the commander of H. M.'s forces in the West Indies to demand of the Captain-General of Cuba the restoration of the brig *Mary Lowell*, and an apology for her seizure.

Secretary Boutwell is about to issue an order prohibiting certain practices among employes of the Treasury. It is believed that it will comprehend smoking, chewing, talking, receiving calls and visiting bar rooms in business hours.

The Prince of Wales has done a very good thing during his present tour in Egypt. He has induced the Pasha to undertake the stoppage of the slave trade of the Nile basin—a trade carried on by nefarious scoundrels who call themselves merchants, but are systematic traders in human beings, who are torn away from their homes and families by armed bands of miscreants or by the native chiefs, who are incited to commit the most horrible offence against humanity that man can perpetrate by the profits these traders supply.

The New York *Times* of May 3d says: Chicago seems bent on forestalling New York in some respects. In the first place, it had on yesterday week the remarkable storm of thunder and lightning which we only had yesterday. In the next, it has got in a direct way from the West, over the railroad from San Francisco, a quantity of Chinese tea, such as it was always in the habit of receiving from New York. It means to keep that latter advantage for the future; and its right there is none to dispute. New York, comparatively speaking, is at the wrong side of the continent in respect of tea chests and John Chinamen.

The Boston *Transcript* says: "June will be a gala month in Boston. Besides the attractions furnished by the Musical Peace Jubilee, the Twenty second New York regiment will visit the city about the middle of the month. Several thousand lovers of the turf are expected to be present at the races in Mystic Park, and a National Homœopathic Convention will collect a large representation of the believers in that system of healing. All these agencies must undoubtedly induce a greater number of strangers to come here during the course of next month than were ever before seen within the limits of the city in a similar space of time."

Odds and Ends.

An Iowa editor dislikes young married couples "because they are so apt to give themselves heirs."

"An expectant one" naively remarks that distant relations, when making their wills, are invariably very "close."

The slave trade it seems, is not yet totally suppressed. A British frigate recently caught two slavers off Madagascar, with 145 unhappy negroes on board.

A Yankee, describing an opponent says: "I tell you what, sir, that man don't amount to a sum in arithmetic—add him up, and there is nothing to carry."

The Boston *Post* says: They are big drinkers out in Arkansas. The Legislature proposes to prohibit the sale of liquor in quantities less than five gallons.

It is now a law in New York that any man who will keep and maintain a public watering trough on the highway shall have an abatement of $3 from his taxes.

Ex-President Johnson has been obliged to break several of his engagements to speak in southern cities, on account of the death of his son, Robert Johnson.

Mr William Sturges, of Chicago, formerly of the firm of Ellis & Sturges, bankers, of Cincinnati, may be safely counted "a bankrupt as is a bankrupt." The total amount of his liabilities being a little over four and a half million dollars.

A piously inclined person was exhorting Pat on the subject of religion. He indignantly answered: "Sure, an' didn't I jine the Methodists? Faix and I did. I jined for six months, and behaved myself so well that they let me off wid three."

A country woman in New York visited Stewart's. "Such heaps of goods! Such lots of people!" And, then, she said, "there were so many pretty little boys named Cash, and all about the same size! I didn't see Mrs. Cash but I tell you she's got a mighty smart lot of young ones!"

The same men who in Massachusetts pioneered and fought through the anti-slavery agitation are now organizing the reform movement, which is to give us equal taxation, a moderate tariff, the Jenckes Civil Service measure, and a sound financial system.

The French navy now contains 63 armored ships of war, 241 screw propellers, 51 side-wheel steamers, and 100 sailing vessels, making the very respectable total of 455 frigates, corvettes, etc.

The Story of Hiawatha.

The city editor of the San Francisco *Spectator* was disgusted with a war story in the *Overland*, and called special attention to the wide field for literature opened by the Indian legends of this coast. The Santa Clara *Union* sent its "Lean Contributor" into the field and he comes out with the following:

Hiawatha is a Digger word and means "Big Injin Me." Hiawatha was a Digger Indian, and lived at Yuba dam. One day "Hi" concluded he would go out in his canoe and catch some salmon. He stole some of the telegraph wire and made him a hook, and while some of the store keepers had their backs turned he stole enough twine to make a fish line, and, getting into a miner's sluice box which he had stolen up the river he went out to fish. As he was a small Digger and had a small canoe a large fish undertook to swallow "Hi," canoe and all, but the boat got crosswise in the fish's mouth, and so he drifted on to the shore and the squaws came down and let "Hi" out of his prison. This is said to have been the origin of the story about Jonah's swallowing the whale. You will notice that I speak of Hiawatha as "Hi," this is to distinguish him from "Lo," the poor Indian. Longfellow tells how Hiawatha won his wife; but don't believe the yarn. Some miners up on Yuba dam told me, that "Hi" bought his wife and traded acorns for her. Longfellow says, too, that her name was Minnehaha; but I think, if she had to work as hard as most of the Digger women, her name would be Minnie boo, hoo.

"Hi" got into a row with his stepfather who was call the west wind, because he was such an old blower. "Hi" was too much for the old man and licked him badly.

One day Hiawatha went into Marysville, and while there he found a swill tub, which he went to eating out of, and not having had anything to eat for several days, he ate so much that it killed him and he took his departure to "The land of the hereafter."

THE EAST.

Breckinridge's sword has been taken to the White House and shown to President Grant, by some absurd person who thought the spectacle worth an office.

The step-mother of President Lincoln died recently in Coles county, Illinois. Lincoln's own mother died when he was very young, and this one trained him in the way he should go.

Gen. Hickenlooper, of Cincinnati, Ohio, offers a $300 prize for the best design for a monument to Gen. McPherson of the army of Tennessee. The monument will cost $15,000.

The Boston *Transcript* says that although many of the citizens are of Quaker lineage, there is not a family of professed Friends in Boston. Quaker women once met with hard use in Boston.

The Secretary of the Interior has decided an actual change of residence or abandonment of lands under the Homestead law, after more than six months at any one time, works a forfeiture to the Government.

Mary C. Vaughn, a story writer, well known in all parts of the United States by her prolific contributions to the literary weekly papers, died recently, from the effects of long-continued and unremitting literary labor.

The New York Constitution will be submitted to the voters of the State next fall. Four votes will be taken upon it, one upon the suffrage clause, one upon taxation, one on the judiciary, and the fourth on the balance of the instrument.

The New York *Herald* says Thurlow Weed, the abdicated lobby King, is about to retire to a farm on the shore of the pretty lakes of Western New York, in the region where the lucky hit of Morgan the first is still cherished, and likewise the memory of Joe Smith.

Van Amburgh's rhinoceros, which cost $20,000, lately escaped in Carmel, Putnam county, N. Y., and made for the water. A big dog belonging to the menagerie was sent into the pond after the animal, and by desperate clinging to an ear, finally succeeded in carrying it ashore.

One steamboat went down the Mississippi river with her barges the other day, loaded with 100,000 bushels of grain. At Winona, Wisconsin, eight such cargoes are waiting shipment. At all the points on the river more or less grain is stored and waiting on steamboats to bear it to market.

Col Meyer, lately taken prisoner with Necret's men in Mexico, was born in the Argentine Republic, and is the son of German parents. During the American civil war he was Lieutenant Colonel of a colored regiment, under the command of General Weitzel. As Colonel of a Mexican regiment, under Escobedo's command, he participated in the battle of Queretaro.

A late number of the *Revolution* says that "at the recent great fire in Eastport, Maine, the women proved themselves equal to the stern demands of the hour. Large numbers of them took their places in lines formed for passing buckets of water and worked steadily for two hours or more, while numerous things, called men, stood lazily around with their hands in their pockets, watching the progress of the flames."

THE WEST.

A row occurred in a saloon at Seattle a few days ago, in which Robert Hayward was shot in the thigh by G. W Allen.

At White Pine servant-girls receive $60 and $80 per month. About one hundred are wanted there immediately and the railroad will soon bring them from the East.

The Seattle paper learns that D. B. Green, formerly agent of the Wallamet Steamboat Company, contemplates building a small stern-wheel boat to be used in the Snohomish river trade. He will commence work next week.

A Puget Sound paper reports that on Wednesday last the ditch was completed which is intended to convey water from Whatcom Creek into the mine, for the purpose of extinguishing the fire. Bark *Amethyst* is loading coal for San Francisco.

The Hon Eugene Casserly's (U. S. Senator from California) outside lands in the City of San Francisco have been assessed at $1,685,700—$35,425 worth of which has been appropriated for public reservations. Mr Casserly also owns extensive tracts of land in Santa Cruz and San Mateo Counties, besides valuable productive real estate in the heart of San Francisco.

The Boise *Statesman* of the 18th inst. says Mr Marion Clark came down from South Boise last week and will return with his family in a few days to make that rich mining country his future home. He was astonished at the richness and extent of the Yuba district, and is perfectly willing to abide the time when it will become the most wealthy and populous mining country on the coast.

A White Pine paper of the 5th inst. says: We hear that a well known Nevadan, formerly a State official, is on his way here as agent of one of the largest houses in New York, to procure customers in White Pine. He was at Salt Lake on Wednesday, and telegraphed that he would soon be here with samples of his house's goods to sell on the most live terms. We hear of other mercantile agents on their way—some from Chicago and some from St Louis.

A dispatch to the San Francisco *Bulletin* dated Cheyenne (W. T.) May 15th, says: The first train from Sacramento, after the completion of the railroad, reached Promontory in fifty hours and Cheyenne in ninety eight and one half hours. The passengers unanimously report the last 100 miles of the Central Pacific rough in some places. The Union Pacific road, from Promontory Point east for a distance of 120 miles, is dangerous, but the engineers are running very carefully. East of Wasatch the road is generally fair, and sometimes good. Often, however, there are bad places.

The Marysville *Appeal* says it is reported that the California and Oregon Railroad will be extended to Antelope Ranch, Tehama county, by the first of September. It will soon be known whether the Company buy the California Northern Railroad, or build a track direct to Chico.

A high military official on this coast, says a San Francisco paper, telegraphed rather verbosely to Sherman to know if he could, in response to the public demand, fire a national salute from the forts in celebration of the completion of the Pacific Railroad. The response was: "By all means. Your dispatch cost more than the powder you'll burn."

A White Pine enthusiast writes to the San Francisco *Herald*: We ought to have at least twenty mills here, and then we would ship bullion to San Francisco in such quantities that the many croakers who have been writing and talking about White Pine being "a humbug," and "the Eberhardt giving out," and asserting that there are no well-defined ledges here, etc., would be so sick of their business that they would, at least, find something else to do, instead of writing false reports about a country which will certainly prove to be the "Silverado" of the world.

Direct Taxation.

The Olympia *Republican* has the following remarks on that portion of the Democratic platform of Washington Territory which demands that the excise system shall be abolished and the revenues raised by direct taxation, levied on every species of property according to its value:

> Very many of the citizens of Washington Territory, under the present internal revenue system, escape the payment of United States tax, except as a license fee for maintaining an [illegible]. Adopt the Democratic system and the poor man in the land must pay a tax upon the little stock he possesses—scanty enough Heaven knows—and frequently insufficient to provide [illegible] for the little ones dependant upon him. Your [illegible] and breweries can make a gallon of beer and sell it as cheap as a gallon of milk. Republicans tax the beer, Democracy would tax the gallon of milk. The poor man does not need the beer, it is a useless article. The milk will give life and [illegible] his little ones. The Democracy says tax it also, just the same as the beer. A barrel of flour is worth about the same as a barrel of beer. Republicanism taxes the useless beer two dollars; the poor need not pay that tax. The wealthy man can drink beer, if he chooses, and the tax don't oppress him. But bread, the staff of life, of which the poor man must not be deprived, Democracy taxes at the same price the barrel of beer is taxed.

Legal Wit.

The following are the questions propounded and answers given at the late examination of some of our young law students for admission to the Bar:

Q. How can a man be legally discharged from his debt without paying it? A. By marrying his creditor.

Q. Why is the doctrine of Estoppel the worst foe to the profession? A. Because it puts an end to litigation.

Q. Why was it reasonable to suppose that a certain city occupant of the bench would make a very poor Judge? A. Because of a *dicta* of an eminent English judge, "that *hard cases* are apt to introduce bad law."

Q. When may a legal instrument be said to have the consumption? A. When it has an *ambiguitas patens*, for that can't *be cured*.

Q. Why is the troth-plighting of lovers like the character of a servant *bona fide* given? A. Because both are *privileged communications*.

Q. Why is the law of Powers like Milton's "Paradise Lost?" A. Because though often referred to it is seldom read.

Q. Why is repeated dunning a good defence in an action of debt? A. By reason of the rule of law "that a man shall not be twice vexed for one and the same cause."

Q. Why is an executor who withholds a legacy a perfect being? A. Because he cannot be *damaged*.

Q. By what titles in law are taken the game of an amateur sportsman and hereditary gout? A. The one by *purchase*, and the other by *descent*.

Q. In what class of personalty by the common usage of society does mere possession without right draw to it the right of property? A. Umbrellas, overcoats and law-books.

Q. If a horse is *distressed damage feasant*, where should he be taken? A. To feed of course.

Q. When may judges be said to be navigators? A. In construing wills, as then they make the intention of testator *the polar star of their guidance*.

Q. Why may a noted railroad king be considered a usurer? A. For the reason that "unlawful profits" is frequently the *gist* of his operations.

Q. Why may lawyers always be indicted? A. For the reason they are properly to be classed as respects their clients' purses with highwaymen, whose motto is "Stand and deliver."

Q. Why is the plea *autre fois acquit* to a second indictment like a noted hotel on Broadway? A. Because it has within it a good *Bar*.

Q. Why may the rule in Wilde's case be said to be like the proposed punishment of the instigators of the late rebellion. A. Because it is never heard of *now*.

Q. Why is it inequitable that a negligent creditor should have his debt debarred by the statutes of limitations? A. Because he has merely "slept over his rights," and he had a legal right to his sleep, too, for in law *all things are presumed to be rightfully done*.

Q. Which of the eldest dramatists displayed a remarkable knowledge of the detail of legal conduct? A. Massinger in "The Old Law," where he gives as the answer of a lawyer to an unsatisfied client, "There is no law for the restitution of fees, sir."

Q. What Latin phrase should be taken by you as an apposite motto during your novitiate at the bar? A. "*Ex otio plus negotii quam ex negotio habemus*. From our leisure we get more to do than from our business."

Q. Why is there substantial reason to believe that those among you who intend to make criminal law a specialty will lead mournful lives? A. Because from the (T)ombs will be heard our doleful sounds.

Q. Where will you "limbs of the law" in prospect get your best living? A. On the credulity of our clients and from the resources of our parents.

Q. Why are you young gentlemen examples of necessity? A. Because though we "know no law" we are great on inspiration.

Examiners. The examination is now satisfactorily ended and the young gentlemen are dismissed to the pressing practice that await them. You have our best wishes and the hope, although some of you may not attain to eminence, there may be none among you which will live to become "the scarecrows of the law." "BRATTLE."

I have ceased to indulge in that impious belief once my favorite that, had Adam and Eve been Yankees, they would not have waited for the Lord to expel them from the garden of Eden but would have emigrated long before and gone to speculating in wild lands.—*Don Piatt*.

The Albany *Evening Journal* asserts that the evidences are conclusive that Governor Hoffman has broken with his own party and now relies on the Republican party to save him being overridden by the Legislature."

FINANCE AND COMMERCE.

WEEKLY REVIEW.

PORTLAND, May 21, 1869

Gold has reached 142½, a figure beyond which it has [illegible]t been for several months.

Legal Tenders 71c buying, and 72c selling.

The drain of gold from this coast in answer to the higher price in the Eastern States and Europe, is still going on, and probably in excess of the production—certainly, in excess of the coinage of the branch mint. Our circulation consisting mainly of coin, this exportation makes a tight money market and works harm to all branches of business. The telegraphic reports from San Francisco represent that money is scarce, business dull and real estate declining, notwithstanding all attempts to [illegible] it up. It is a noticeable fact here, too, that real estate transactions are more rare than during the last year and the earlier months of this, and prices are decidedly less buoyant. Every indication points to a scarcity of money and a consequent stagnation of business, such as we have not experienced for several years.

Liverpool wheat 9s 4d.

San Francisco—Wheat—Quiet at $1 25@1 55; as a range, the latter figure for a choice article, which is scarce and firm. Barley—Feed, $1 25@1 35, and brewing $1 40@1 50. Oats—California, $1 40@1 70; Oregon, $1 65@1 70. Wool—Receipts large, and sales range at 15@17c for clear grades spring clip. Beef—American, first quality, at 9@10c per pound. Oats have declined sensibly, buyers not willing to offer more than 45c for good. Butter is in good supply and of better than the usual average quality. [illegible] DESTROYED!

LEAVE OFF SMOKING AND CHEWING THE POISONOUS WEED, TOBACCO.

ORTON'S PREPARATION!

ESTABLISHED 1866.

One box of Orton's Preparation is warranted to destroy the appetite for Tobacco, in any person, no matter how strong the habit may be. *If it fails in any case the money will be refunded. It is perfectly safe and harmless to all.* It is almost impossible to break off the use of Tobacco by the mere exercise of the will. Something is needed to assist nature in overcoming a habit so firmly rooted. With the help of the Preparation, there is not the least trouble. *Hundreds* have used it who are willing to bear witness to the fact that Orton's Preparation completely destroys the appetite for Tobacco, and leaves the person as free from any desire for it, as before he commenced its use. The Preparation acts directly upon the same glands and secretions affected by Tobacco, and through these upon the blood, thoroughly cleaning the poison of Tobacco from the system and thus allaying the unnatural cravings for Tobacco. *No more hankering for Tobacco after using Orton's Preparation. Recollect it is warranted.*

The time taken to allay all desire for Tobacco by the use of the Preparation varies *slightly* in different persons, the *average* time being about *Five days.* Some have no desire for Tobacco whatever after using the Preparation *Two days.*

The *Health* and *Purse* of every Tobacco user in the country calls loudly, ABANDON THE USE OF TOBACCO.

RECOMMENDATIONS.

The following are a few selected from the multitude of recommendations in our possession

We, the undersigned, hereby certify that we have used Orton's Preparation for the purpose of destroying the appetite for Tobacco, and can assure those who are suffering from the habit that Orton's Preparation will certainly destroy the appetite for Tobacco *quickly* and *permanently*, and without any bad effect upon the health, and without creating an appetite *either for the Preparation or any substitute.*

W. P. Heald, Bangor, Maine; J. Moody, Southport, Indiana; E. W. Adkins, Knoxville, Tenn.; John Merrill, Bangor, Maine; J. Bunch, Springfield, Tenn.; W. D. Harrington, West Point, Georgia

From Samuel Cessidly, Editor Journal & Argus:

PETALUMA, CALIFORNIA, Dec 14, 1868

For about twenty years I had used Tobacco in its various forms, and for the past eight years had been an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously impairing my health, I determined if possible to check myself of the habit. Hearing of Orton's Preparation for destroying the appetite for Tobacco, I sent to Portland, Me., for a box of the medicine, which I received through the mail on the 17th of November. A month has not elapsed and yet the medicine has effectually relieved me from any yearning or desire to use Tobacco in any form. The Preparation is not more difficult or unpleasant to take than to commence chewing gum. I conscientiously believe the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to assist those who wish to break away from the slavish appetite for Tobacco I offer this testimonial.

SAMUEL CESSIDLY.

Beware of Counterfeits and all articles purporting to be like this, of the same name or otherwise. The great popularity of Orton's Preparation has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles. Purchasers will please order directly from the Proprietor, or his duly authorized Agents.

The price of Orton's Preparation is $2 per box, or three boxes for $5, sent by mail to any part of the country securely sealed from observation, with postage paid on receipt of price.

How to send money by mail.—Enclose the amount in a letter, seal carefully, register the letter and take a receipt for it of your Postmaster. Money sent by mail as above directed at my risk. Address

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

R. B. MOORE,	NATHANIEL BELL,
A. [illegible]	G. W. WARD,
[illegible]	JOHN M. HOLLOWAY,
W. D. PORTER,	ROBT RAMSEY,

And others in that vicinity.

Persons afflicted with the distressing malady of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.
